

Company Profile

2015

company introduction, projects to be carried out, and future project schemes

About Our Company

Vertex Mining Consultancy is a medium - sized consulting company that renders geological and mining consulting services to the mining industry. Mining Equipment hire. Contract Mining. Crushing and screening. Miscellaneous mining services.

Vertex believes in making a difference, a difference to our clients, the communities we touch and the world we live in. We've made it our mission to support clients in Making Sustainability Happen. Our goal in the mining and minerals sector is to bring this company mission to life through the solutions, services and projects we provide to the industry.

Our strength lies in the depth of talent and expertise found in our technical disciplines across Africa.

Our Vision

To help miners find smarter ways to work and fully realise hidden business value.

Our Mission

We contribute to the strategic success of our clients by providing ethical, innovative, functional and technologically advanced solutions, by collaborating with well-positioned expert networks and by providing ownership value and growth opportunities to our staff.

75% of our business is repeat business - When our clients come back to us year after year, it's proof that we deliver mining solutions that work.
